## graces hats

**C**hito Mark of Graces Hats is not a new name in the fashion industry. Her newest collection of hats is made in a fabric called Crinoline, which is the newest in the millinery scenery. According to Chito, she says "It is innovative and stronger than Sinnamay, though Sinnamay still has its place in the millinery world."

Crinoline comes in colours like red, yellow, blue, grey, white and is also mixed together to create vibrant multi-colours giving it a dramatic edge.

The attraction of Crinoline lies in its longer-lasting strength.
